

## DESERVES SUCH HONOR, HE SAYS

Johnson Feels Justified In Praising  
Trutona As Peer of All  
Tonics.

LEXINGTON, KY., June 16.—Russell Johnson, 66 years old, a retired furniture dealer and well-known Lexington resident of 605 South Limestone street, has given Trutona a thorough trial and declares he can conscientiously endorse it as the "best medicine he has ever taken."

"For many years I've been troubled with constipation," Mr. Johnson said. "I constantly had to take a laxative. I would become so dizzy at times that I could hardly get around. I was nervous and restless at night—so bad I couldn't sleep. Headaches bothered me continually."

"Because of the relief I've gained I feel justified in saying that Trutona gave me more benefits than any other medicine I've ever taken. My bowels act with clock-like regularity now; I don't experience the dizzy spells and my appetite is much better than before. I hope others will try Trutona and become convinced of its merits as I have."

Trutona is now being introduced and explained in Paris at G. S. Varden & Son's. (adv)

## WHEAT SMUT COST FARMERS OVER \$600,000

Approximately \$600,000 will be the cost to the farmers of Kentucky this year on account of wheat smut, it was stated by Prof. Frank T. McFarland, assistant professor in botany at the University of Kentucky, who is assisting in conducting a campaign to control its spread.

Professor McFarland is working in Harrison, Fayette, Bourbon and Boyle counties, and he stated in some fields he had found the infection in wheat to run as high as 25 per cent. The average for the State is 4 or 5 per cent.

Four government representatives are doing similar work in the Western part of the State and as soon as it has been ascertained where the smut is the most prevalent, a series of lectures and demonstrations on the control of smut will be given. These lectures will start late in the summer.

Professor McFarland has just completed a survey of the State for the new disease, "take all," which is proving dangerous in some States, but he has not found any in Kentucky.

## DON'T DELAY.

Some Paris People Have Learned That Neglect Is Dangerous

The slightest symptom of kidney trouble is far too serious to be overlooked. It's the small, neglected troubles that so often lead to serious kidney ailments. That pain in the "small" of your back; that urinary irregularity; those headaches and dizzy spells; that weak, weary, worn-out feeling, may be nature's warning of kidney weakness. Why risk your life by neglecting these symptoms? Reach the cause of the trouble while there yet is time—begin treating your kidneys at once with a tried and proven kidney remedy. No need to experiment—Doan's Kidney Pills have been successfully used in thousands of cases of kidney trouble for over 50 years. Doan's Kidney Pills are used and recommended throughout the civilized world. Endorsed at home. Read Paris testimony.

Mrs. A. L. Burley, 329 Eighth street, says: "I have used Doan's Kidney Pills, getting them from the Ardery Drug Co., and from the benefit I received, I certainly think they are a good, reliable remedy. Whenever my kidneys have acted irregularly or my back has been weak and lame, I have used a box or so of Doan's Kidney Pills. They have always relieved me of the complaint."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Burley had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. (adv)

## CROWDS ATTENDED.

The annual inspection of the Experiment Fields at Greenville, Russellville, Mayfield, Paducah and London has just been completed. The following men from the Experiment Station and the Extension Division made the trip: Thomas Cooper, Geo. Roberts, A. E. Ewan, Morgan Hughes and Geoffrey Morgan. Crowds of farmers attended the inspection of each field.

The results of the experiments in the use of ground limestone and phosphate were strikingly convincing. All plots using limestone and phosphate grew splendid crops of clover and wheat. Those without either showed very poor stands of clover or an entire failure. On untreated plots the wheat was light. Full particulars of these tests may be had by writing to the Experiment Station at Lexington.

## CHRONIC CONSTIPATION

Perhaps you have never thought of it, but this disorder is due to a lack of moisture in the residual of the food; if you will drink an abundance of water, eat raw fruits and take lots of outdoor exercises, you may be able eventually to overcome it entirely. In the meantime use the most mild and gentle laxatives. Strong and harsh cathartics take too much water out of the system and make a bad matter worse. Chamberlain's Tablets are easy and pleasant to take, and most agreeable in effect. Give them a trial.

## JUST PLAIN HORSE SENSE

"How will I spend my vacation this summer?" Oh, yes, we know you would like to trot off to the seashore, and splash around in the water, and show strangers what a fine figure you have, and annex a coat of fashionable tan, and eat the vile stuff the summer hash houses hand out to you, and all that sort of bunk. But here's a little old-fashioned horse sense and it won't cost you even a thank you.

Within a few miles of this town are many of the finest farms in the country. In the summer time you will find growing on those farms about everything you care to eat. You will find cattle and hogs, and sheep, and other animals galore. They are good to look at and it won't cost you anything to look. Then you will find good, honest, intelligent, whole-souled people on those farms, too—people who mean what they say, and don't flatter you to your face and call you a freak when your back is turned. They are good people to know and better people to have as friends. Go out and spend your vacation on one of those farms. Feed the chickens and the calves, and learn to milk the cow and stick on the back of a horse. Wear a fifteen-cent straw hat and ride around on the loads of hay as the farmer is drawing it into the barn. Pick flowers and give your tired and dusty lungs a treat by breathing the pure air of the country and the fragrance of fields that are green. Be a real sport, and not an imitation. Get back to nature once in your life if you never get there again. Get a few friends together, pick out the place you want to go, and write to the farmer. If he can accommodate you it may cost you but a few dollars and be of inestimable value to your future health. This is just homely language, but darned good human sense.

## HIGH COST DOING IT.

The high cost of cigars is doing more toward breaking up the tobacco habit than the exercise of will power. It costs the average smoker these days more real money than used to furnish pork chops for the family.

A deposit of white marble said to equal the best Italian in quality has been discovered near Pretoria, Transvaal.

## BOURBON'S PART IN THE GREAT WORLD WAR.

The following extracts are from a letter received by Mrs. Fanniebell Sutherland, County Historian, from the State Historian, Mr. Fred P. Caldwell, of Louisville, under whose direction a history of the part played by Kentucky in the great World War is being compiled:

June 11, 1919.

TO COUNTY HISTORIANS:

We are sending you a copy of the list of names of Kentuckians who have won special honors, as complete as we have been able to make it up to this time. It is, to say the least, a remarkable showing. More than 220 Kentucky men and women have now medals or crosses, or have been especially cited or promoted for bravery on the field of battle.

Please retain this copy for your files. We have sent copy of list to your local papers to-day, and have asked them to publish as much of the list as they can, and also to be sure to print the official citations of the men from your county, if any, and the surrounding counties, who have won the Distinguished Service Cross.

These citations contain some thrilling stories of personal bravery.

The State Council appreciates your good work. The historical drive is proving of very great value. It has enabled the County Historians to push their work, and has served to place before the people the prominent part which Kentucky played in the great war.

Yours very truly,

FRED P. CALDWELL, State Historian.

In the list to which reference is made appear the following names of those who won the Distinguished Service Cross:

Capt. Lee S. Eads, (deceased), Lexington.

Capt. Reuben B. Hutchcraft, (deceased), Paris.

Sergt. Theodore Keller, Lexington.

Lieut. Washington Reed, Lexington.

Other special honors:

Private L. L. Hopkins, Muir, Decorated by British.

Cited or promoted for bravery: Bishop Batterton, Paris.

Private Henry F. Dale, Paris.

Major Neville C. Fisher, Paris.

Miss Mary E. Sweeney, Lexington.

Miss Sunahine Sweeney, Lexington.

Private Frank P. Taylor, North Middletown.

The following official citation also appears in the long list:

"Capt. Reuben B. Hutchcraft, (deceased), Paris, Ky. Near Sedan, France, Nov. 7, 1918, Capt. Hutchcraft personally took command of a platoon of his company, which was designated as advance guard and his patrol to the most point reached by any of during the engagement killed while making within thirty yards of the enemy's line."

## RESUME WORK ON CATHEDRAL

(New York Sun.)

Sculptures and pictures in stained glass of the saints whose names are associated with cities and battles of the world war are included in plans discussed the other day for carrying on the work of completion of the Cathedral of St. John the Divine.

A proposal to insert into the edifice honor rolls containing the names of the men of the diocese who gave their lives in the combat and the names of the battlefields where Americans distinguished themselves was also made.

The meeting was called to arrange for a resumption of the work of construction, halted by our entrance in the war. The foundations of the nave, including the floor, had been completed when the work was done for lack of labor.

It is proposed to continue on an architectural basis the cathedrals of the old ages. Traces be avoided.
